Purely Business!

The columns of a newspaper represent a cash value. No publisher can afford to give advertising "notions" free any more than a merchant can lose over his counter from a lot of dry goods or shoes. A newspaper is a legitimate business concern. Its columns are its stock in trade, and advertisements should be paid for, no matter in what part of the paper they appear.

Jo Heiser Post Resolves Against Putting Deserters on the Pension Roll.

At the last meeting of Jo Heiser Post No. 13, G. A. R., of this city, resolutions were unanimously adopted censuring Congressmen who make a practice of having bills passed correcting the military record of deserters from the Union Army.

The sole object of these "corrections" at this late day is simply to enable deserters to get on the pension roll; and in view of the large number of bills presented, it is no wonder that people are howling about the pension list.

No one has ever raised his voice against the real soldier's pension; but every soldier should himself cry out against deserters and frauds.

"The best way to get rid of a bad law is to enforce it."—General Grant.

"CHARITY begins at home" does not always apply in missionary work. It generally begins in Asia and gives out before it reaches America.

A CINCINNATI man asks a divorce from his wife because she goes to bed with her shoes on. This should encourage the poor devil whose better half planks her cold feet right in the middle of his back.

OUT of a total of 205 seamen on board the ill-fated battle-ship Maine, 119 were of foreign birth, coming from all parts of the globe. Irishmen head the list, with Germany, Norway and Sweden following close behind. The proportion is about as follows: Irish, 27; Swedes, 18; Germans, 15; Norwegians, 12; Japanese, 9; Danes, 7; Englishmen, 6; Scots, 2; Frenchmen, 2; Finland, 3; Canucks, 3; and two each from Nova Scotia, West India, Malta, Newfoundland and Greece. New Brunswick, Prince Edwards Island, Romania, Prussia and Belgium have one representative each. This exhibit for a single warship is quite an interesting item when one asks where this country gets her "Yankee" sailors.

HOW much have we spent for these battle-ships against which grave charges of unwise, needless, unnecessary and wastefulness are brought since the Maine horror?

The first cost of our six sea-going battle-ships is as follows:

| | |
|--------------------|--------------|
| Indiana..... | \$ 3,030,000 |
| Iowa..... | 3,010,000 |
| Maine..... | 2,550,000 |
| Massachusetts..... | 3,760,000 |
| Oregon..... | 3,140,000 |
| Texas..... | 2,500,000 |
| Total..... | \$17,330,000 |

We are now building five battle-ships which will cost at least the following sums:

| | |
|----------------|--------------|
| Kearsarge..... | \$ 3,150,000 |
| Kentucky..... | 3,150,000 |
| Alabama..... | 3,750,000 |
| Illinois..... | 3,750,000 |
| Wisconsin..... | 3,750,000 |
| Total..... | \$17,500,000 |

Thus there has been expended or is in process of expenditure \$34,780,000 for ships of a type that is, to say the least of it, under great suspicion; and THE LEADER leans strongly to the idea that money will be spent to far better purpose if applied to permanent fortifications for defense of cities along our coast.

We Refer to Our 10 Per Cent. Cash Plan.

DID YOU SEE THEM? The wagons and drays standing in front of our place all week to be loaded with the hottest bargains in the Ohio Valley. Our customers' patience did not become exhausted, and they laughingly joked with one another, comparing notes and invariably arriving at the conclusion that they could afford to wait, considering how much they had saved on their various purchases of the Price Fighter; and, say, "various" aptly described it, for their purchases were varied. One customer bought of us a Farm Wagon, into which was loaded a Double Shovel Plow, two Land Plows, a Rocking Chair, Bedstead and Mattress, and he left rejoicing over the fact that he had just saved \$18.90 on the deal. He also left his order for future delivery for one Disc Harrow, one Hoosier Corn Planter, one Riding Cultivator and 150 pounds Binder Twine, saying to me, "Winter, you deserve all my business for what you have this day done for me, and you shall have it!"

Ah, fellow-citizens, that's where our plan wins. Every customer is our friend. Once our customer, always our customer. During our eight years experience as a Price Fighter we have never lost a customer. All we ask is an acquaintance in a business way. We promise you that it will ripen into friendship. The 10 per cent. plan is very fascinating—wins friends and never loses them. Every article that leaves our house is a living advertisement. We are proud of our short record in your midst. All we ask is your co-operation, and we will stay here. Bear in mind that our plan saves you from 40 to 90 per cent., besides guaranteeing you a square deal, for we have no leaders, as we make 10 per cent. on everything that leaves our house. Also bear in mind that success on the 10 per cent. plan requires the sale of an immense quantity of goods. It is to your interest to co-operate with us and send all your friends here, for so long as we stay here one dollar will go as far as two did in our lines before we came here. You who have dealt with us realize this fact. This is purely a mutual affair. We hope to stay here, and it is to your interest to have us stay here. All we ask is a comparison of the prices of Furniture and Farm Implements before and after the Price Fighter arrived. Who did it? You know! I solicit your business on the square.

Walk into our house, blindfold your eyes, buy a Chair, Plow or anything, go out and search the world, and if you can duplicate it at the price I charged you while you were blindfolded, bring it back and your money will be refunded and a handsome present made to you. That's our style.

'Tis with pleasure that I subscribe myself the "People's Friend."

A TELEGRAM from Washington says some good old soldier will be selected by LESLIE COMBS for Chief Clerk when he becomes the Pension Agent at Louisville. Now's the time for the Mason County Advisory Board to get in its big legs.

COLONEL STEADY writes from Washington that Congressman EVANS has been notified by the Secretary of War that an appropriation cannot be made for the purpose of dredging in front of the Louisville city wharf. The expense must therefore be borne by the city should the work be considered a necessity. There might also be some profitable dredging about the corner of Sixth and Jefferson, and the taxpayers would gladly pay the bill.

IN referring to the Furze Bill now before the Kentucky Legislature The Lexington Herald, Democratic, uses the following language:

"The Goebel Bill is not an election law at all; it is not an electoral system; it is a simple, efficient and powerful machine to declare the desired persons elected without the slightest regard to the number of votes cast or as to how these votes may be cast. The three State Commissioners have universal, absolute, irresponsible power to appoint county boards and change them at will and these boards absolute and unappealable power to declare any one elected they desire. If it of the returning boards of Florida, Louisiana, Mississippi, Georgia and other Southern states could use this bill, if it would not shiver in their hands as they tried to read it in the climate in which they now dwell they would turn green with envy; it is an improvement on their work."

THE Courier-Journal's Washington correspondent says Congressman PRICH is one of the few Southern members who has been successful with Southern war claim bills. Since the meeting of Congress he has introduced twelve separate war claim bills for his constituents, and by his persistency he has succeeded in securing a favorable report on every one of the bills, which are now on the calendar. He said this afternoon that he did not expect to secure the passage of the bills just now for the reason that this is to be an economical session, but he is confident they will all go through at the short session by which time there will be ample money in the Treasury to pay all just claims against the Government. Mr. PRICH believes that in a very little while the Dingley Bill will produce more than enough revenue to pay current expenses.

The Silver Service Belonging to the Maine
Recovered—Fourteen More Dead Bodies
Taken From the Debris Tuesday.
They Are Unidentified, Being
Horribly Mutilated.

HAVANA (via Key West), Feb. 23.—
The situation Tuesday night was more
grave than at any time since the Maine
explosion a week ago.

COMMANDER ADOLPH MAHRE,
Of the Battleship Vermont.

Although the officers of the naval
board of inquiry preserve an impenetrable
silence, the World correspondent
learns that some of the best naval
experts now believe that the explosion
was the result of treachery.

They do not believe that Spanish
officers were part of the conspiracy.
From evidence now in their possession
they believe the Spanish government,
Gen. Blanco and all his military associates
were guilty of participation in the crime.
It is believed to have been set off by a
fanatic.

Naval officers fear that when the
facts are known it may be impossible
to restrain public sentiment. President
McKinley and Secretary Long are
said, frankly, by officials who have
visited directly from Washington, to be
sternly for peace.

Both hope that the naval board of
inquiry will be able to prove that no
crime has been committed, even by a
Spanish fanatic. But the American
officers fear trouble when all the facts
are known. They do not expect any
amiable revelations or any radical
change in the situation for a week.

Consul General Lee Tuesday informally
advised Americans not necessarily
detained here to leave for home at
once. Many families will sail by
the Olivette Wednesday.

This is an indication that those on
the ground realize the possibility of
trouble arising suddenly and their
inability to protect women and children
if an outbreak occurs.

Key West, Feb. 23.—Secretary Long
has issued orders to all consuls
to begin today to grant interviews to
newspaper men or any other persons
in reference to the destruction of the
Maine, or any matter connected with
the disaster, and is being rigidly en-
forced by the naval authorities here.
The order has naturally, on account of
the open manner and absolute free-
dom with which all information has
been heretofore given by at-
tachés of the naval forces near this
city, created the impression that the
government in the possession of facts
which perhaps have been developed by

TWO COMPANIES

Of Troops to Be Sent to Key West From
Atlanta, Ga., Feb. 23.—It developed
here Tuesday night that officers have
been received at Fort McPherson to
hold two companies of United States
infantry for immediate movement
to Key West. Two companies have
been detailed, and private soldiers and
military orders not to leave the reservation
even when off duty. It has leaked
out, however, that the men telling their
friends good by, and saying that they
were to move are daily and hourly ex-
pected.

Inquiry develops the fact that this
order has been expected ever since the
raid in Havana, but it was not re-
ceived until several days after the
Maine was blown up.

A Bill Passed in the Senate to That Effect
—It is Thought the 30-More Will Pass
the House—Other News From the
National Capital of Interest.

WASHINGTON, Feb. 23.—As soon as
the reading of the historic farewell
address to Washington was concluded
by Mr. Lodge (Mass.), in the senate
Tuesday, Mr. Hawley (Ct.), chairman
of the military affairs committee, called
up the bill providing for the estab-
lishment of two additional regiments of
artillery for service for manning the
heavy coast defense batteries which
congress has provided during the past
two years.

Mr. Tate (Tenn.) objected to the bill
because it tended to an increase of the
army, to which he said he was unwill-
ing to assent. The bill, however, has
been enough troops already under en-
listment to man all the guns now be-
ing provided for by the government.
The bill would increase the number of
the assign infantry regiments to the man-
ning of these guns than to put them in
charge of new recruits.

In reply Mr. Hawley pointed out
that the strength of the army was not
increased in proportion to the needs
of the inhabitants of the country.

In addition he said congress had
made large appropriations in recent
years for gunboats, gun forts and
coast defense stations. Of these guns
120 were of large caliber and delicate
mechanism. To these must be added
232 rapid steel mortars already placed
or soon to be placed in the coast de-
fense.

In order that these guns may be
properly handled a body of trained ar-
tillerists is necessary. Each of these
guns will require a crew of 25 men.
It is as much as it requires to run a
locomotive or an ordinary river steamer.

Mr. Cockrell (Mo.) said he was
not in favor of the bill. He said that
1,000 men, which this bill calls for
will be necessary to man these guns.

THE TERROR AT FINISHED.

WASHINGTON, Feb. 23.—In explana-
tion of the order made Monday to the
Norfolk navy yard officials to have the
Terror in condition for service, Sec-
retary of the Navy, William D. Taft,
said that the Terror had been given
to replace the Maine, it being deemed
desirable that the armored
hull should not fall into a certain
number. There was very little work
to be done on the Terror, and 48 hours
should suffice to finish it. The Terror
is the only armored gunboat in the
fleet, and although not as effective
as a sea boat as a battleship, in the
smooth waters of the harbor she would
probably be able to hold her own
against almost any craft.

Mr. Taft said the repairs on the
monitor Terror were completed
Tuesday night and it is understood she
will sail for New York Wednesday
morning. The repairs were given to
Boats and Winslow also are prac-
tically completed and they are ready to
leave the dry dock. The Parks will
hardly be ready to leave the yard un-
der ten days. All of her boilers have
been repaired. The Terror will be
ready to leave the yard by the end
of this year, and a requisition for more
men has been made. The number of
men on the Terror will probably be
doubled by March 1.
